Summary

Entry-level Web Developer and Diploma in Systems Development graduate with hands-on experience building responsive, user-focused web applications using HTML, CSS, React, Tailwind CSS, PHP, and MySQL. Strong foundation in frontend and backend development, REST API integration, and database-driven applications. Passionate about learning, problem-solving, and writing clean, maintainable code while growing under mentorship in a professional development team.

Skills

Frontend: HTML5, CSS3, JavaScript, React, Tailwind CSS

Backend: PHP, MySQL, Supabase

Fundamentals: REST APIs, Responsive Design, Authentication & Authorization, Basic SQL, Git & GitHub, Debugging, Cross-Browser Compatibility

Projects

Deadline Master | React Productivity App

Live: deadline-master.netlify.app/ | **GitHub:** <https://github.com/Khalipha-Samela/Deadline-Master.git>

Tech: React, JavaScript, Tailwind CSS

- Built a React-based productivity application with real-time task countdowns, improving task visibility and time management
- Developed reusable, state-driven components and persisted user data using browser localStorage
- Implemented task priority levels, overdue alerts, and smooth UI animations
- Delivered a fully responsive, glassmorphism-inspired interface

MindGuard Journal | AI-Assisted Journaling App

Live: mindguard-journal.netlify.app/ | **GitHub:** <https://github.com/Khalipha-Samela/MindGuard-Journal.git>

Tech: HTML, CSS, JavaScript, Supabase, PostgreSQL

- Developed a privacy-focused journaling application with secure authentication and user-scoped data
- Built frontend dashboards to visualize emotional trends and usage patterns
- Integrated REST APIs and Supabase authentication for secure data handling
- Delivered an accessible, mobile-friendly interface focused on usability and clarity
- Gained experience in authentication flows, database-backed applications, and API-driven development

Quiz Quest | Online Trivia Platform

Live: <https://quiz-quest.42web.io/?i=1> | GitHub: <https://github.com/Khalipha-Samela/Quiz-Quest.git>

Tech: PHP, MySQL, JavaScript, HTML, CSS

- Built a full quiz interface with timers, scoring, and leaderboards
- Designed interactive UI flows for quizzes, rounds, and results
- Implemented responsive layouts and animation-driven feedback

Education

Boston City Campus	2023 - 2025
---------------------------	-------------

Diploma in Systems Development

National School of the Arts	2018-2021
------------------------------------	-----------

National Senior Certificate

Availability

Open to Internship and Junior Web Developer opportunities. Eager to learn, contribute, and grow within a collaborative development team.
