Summary

Diploma in Systems Development graduate with hands-on experience in PHP, MySQL, JavaScript (ES6+), HTML5, CSS3, React, and Tailwind CSS. Strong understanding of full-stack web development, responsive design, and API integration, with a focus on clean, maintainable code and continuous learning

Skills

Frontend: HTML5, CSS3, JavaScript, React, Tailwind CSS

Backend: PHP, MySQL, Supabase

Projects

Deadline Master | React Productivity App

Live: deadline-master.netlify.app/ **| GitHub:** https://github.com/Khalipha-Samela/Deadline-Master.git

Tech: React, JavaScript, Tailwind CSS

- Built a React-based productivity application with real-time task countdowns, improving task visibility and time management
- Designed reusable components with state management and localStorage persistence
- Implemented priority levels, overdue alerts, and smooth UI animations
- Delivered a fully responsive, glassmorphism-inspired interface

MindGuard Journal | AI-Assisted Journaling App

Live: mindguard-journal.netlify.app/ **| GitHub:** https://github.com/Khalipha-Samela/MindGuard-Journal.git

Tech: HTML, CSS, JavaScript, Supabase, PostgreSQL

- Developed a privacy-focused journaling application with secure authentication and user-scoped data
- Built frontend dashboards to visualize emotional trends and usage patterns
- Integrated REST APIs and Supabase authentication for secure data handling
- Delivered an accessible, mobile-friendly interface focused on usability and clarity

Quiz Quest | Online Trivia Platform

Live: https://quiz-quest.42web.io/?i=1 **| GitHub:** https://github.com/Khalipha-Samela/Quiz-Quest.git

Tech: PHP, MySQL, JavaScript, HTML, CSS

- Built a full quiz interface with timers, scoring, and leaderboards
- Designed interactive UI flows for quizzes, rounds, and results
- Implemented responsive layouts and animation-driven feedback

Education

Boston City Campus   2023 - 2025

Diploma in Systems Development

National School of the Arts   2018-2021

National Senior Certificate
